

ALABAMA VOTERS

93%

Rank mental health and substance abuse treatment as **an important priority** for the state.

46%

Said they or someone close to them had experienced a mental health crisis or attempted self-harm.

82%

Believe a portion of **gambling revenue** should go to mental health and most **opioid funds** should go to addiction care.

52%

Support a 50-cent telephone fee for 988 crisis services even when the vast majority were hearing about 988 for the first time.

63%

Would be **more likely to support an elected official** who prioritizes mental health funding.
